

Bike Rack PDF

# About the Bike Rack

## Bike Rack Features

Our bike rack can hold up to 5 bikes at one time, and can fit any tires that are less than 30mm wide. The average bike tire is 25mm wide, so our bike rack should be able to fit your bike. The bike rack measures 2 meters wide and 0.63 meters long (2 feet).

### Additional Information

The bike rack is located beside the vehicle parking lot on the first entrance off the 4 way, and has a garbage bin, recycling bin, and washrooms nearby.
